Cybersecurity Starts Here™

About Matt and VM Squared

Matt Rose is a Mississippi transplant from Minnesota. He was born and raised in Fargo, ND. Matt entered the IT business back in 2002, when he was heavily involved in the SATCOM side of the business. Matt frequently was requested to fix network configurations of clients for the SATCOM equipment to function correctly. Matt has consulted with many governmental agencies in MN, ND, WI, and MS. He has also consulted for Fortune 500 companies such as 3M, Best Buy and Monsanto.

VM Squared is an IT company specializing in Advanced Cyber Security and Business Continuity for Manufacturing, Financial, shipping, and Government. We work within these sectors to analyze and develop strategies to maintain proper cyber security postures within the ever-changing threat landscape to ensure continuity of business and build resilience to cyber threats on an International basis.

CREATING
A NEW
RECORD
IS EASY!
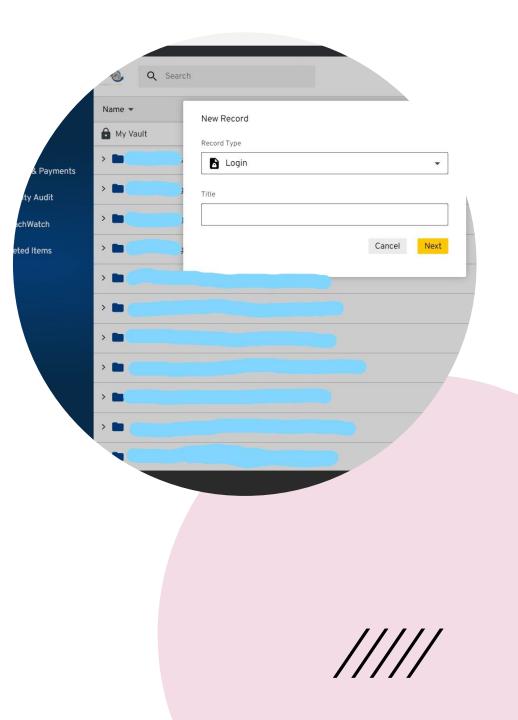

HOW TO CREATE A NEW RECORD!

How to Create a New Record

- Click Create New Record

- Choose Record, File, Shared Folder, or Payment Card

- Choose a Record Type and Click Next

- Fill Out Your Information
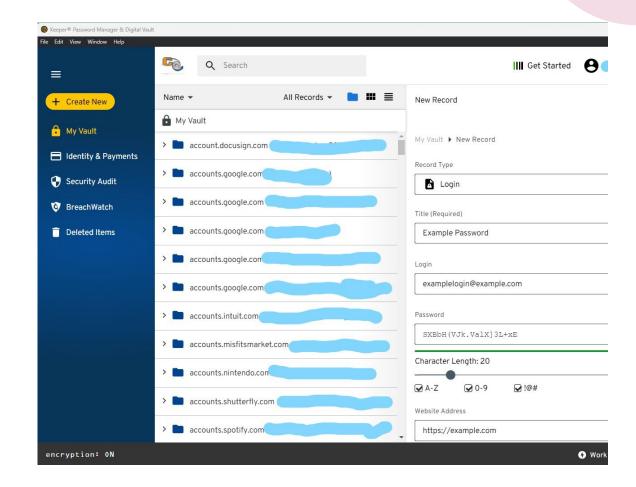

- Save and Done!

Password Randomization!

- Randomizing Your Passwords is one of the Best Ways to Keep Your Account Secure!

- This Feature is Built-In to Keeper and can be Done From Any Screen that Allows You to Add or Edit Your Passwords/Records!

- Just Look for This Symbol!

EDITING RECORDS FROM THE VAULT IS QUICK AND SIMPLE!

Edit Your Records from the Vault by Simply Clicking on a Record and Changing Your Record Type, Title, Login Username, Password, and more!
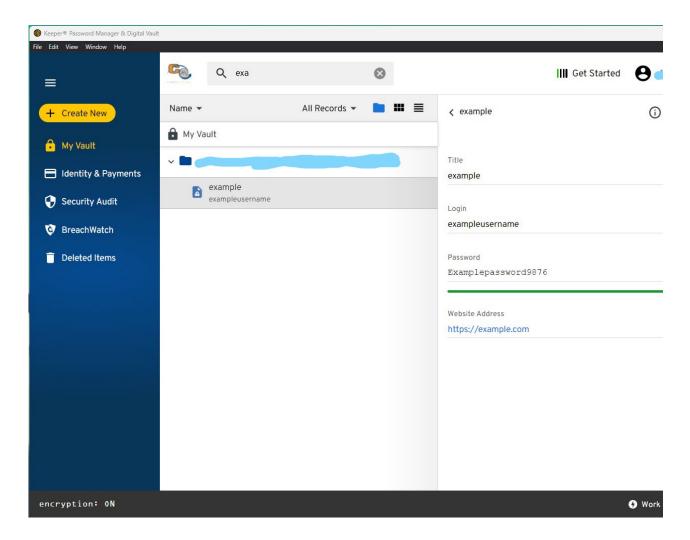

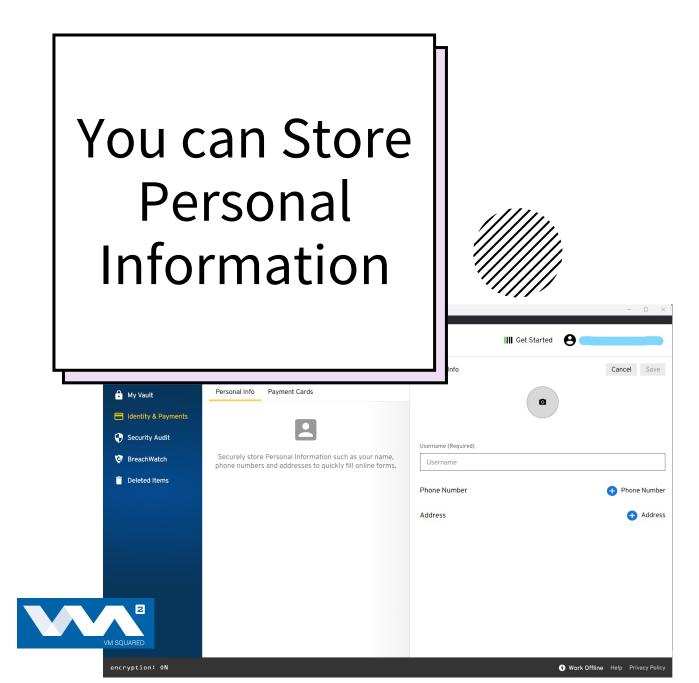

EASILY SEARCH FOR RECORDS!

• Just Type Whatever You're Searching for into the Search Box and You're Good to Go!

• From Here You Can Click on Your Record to View Your Password and Login.

• You Can Also Edit Your Title, Login, or Password From This Screen!

Storing Credit and Debit Information

- Securely Store Your Card and Payment Information!

- No More Getting Up From the Couch to Grab Your Wallet or Purse.

- Click Identity and Payments tab on Left, Click on the Payment Cards Subtab, add Your Card Information, and Ta Da!
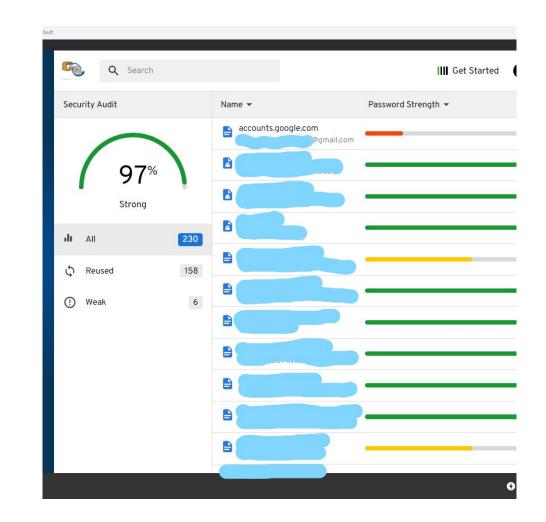

YOUR SECURITY AUDIT

Security Audit

- View Your Overall Security Score.

- View All, Reused or Weak Passwords/ Login Information.

- Click on Passwords that are Reused or Weak to Quickly Navigate and Resolve Security Issues.

- A Visual Indicator Shows What's Most ar Risk and How Long it has Been at Risk.
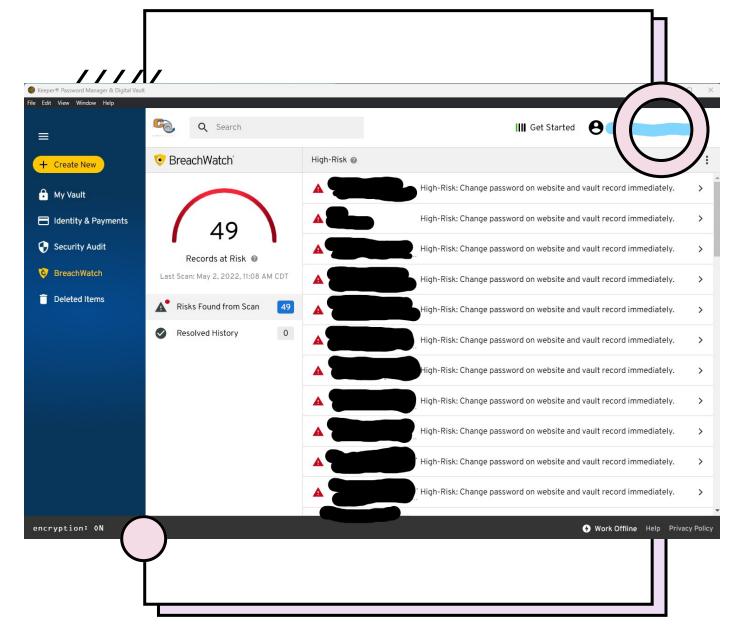

BREACHWATCH KEEPS YOU INFORMED

Quickly See Records that Have Been Identified During Data Breaches.

These are Considered High Risk because Criminals Keep Password Directories of Breached Passwords.

By Clicking on a High-Risk Password, You Can Redirect to the Password's Website to Fix the Problem!
